Department of Mechanical Engineering, Mechatronics and Industrial Design

### **VACANCY: MTech Full-Time Study Bursaries 2016**

**Fatigue failure**

The Sound, Vibration and Materials Research Group at the Tshwane University of Technology in the Department of Mechanical Engineering, Mechatronics and Industrial Design is offering a scholarship for full time MTech studies as from **1 March 2016** funded by the University of Pretoria (Eskom). The project will be in the general field of Mechanical asset integrity management, stress, fatigue and vibrations. The precise detail of the project will be dependent on our contract position and project requirements at the time.

**Requirements:** At least 60% average mark at BTech level in the field of Mechanical Engineering including a **pass** in subjects: **Stress Analysis IV** and **Mechanics IV**.

Must be hard working and committed.

Only full-time students (local or international) are invited to apply for the above bursary. Preference will be given to South African citizens.

**Benefits:** A student bursary of R77 000 per annum for a maximum of two years and **additional funds** to assist with project costs for the full-time study bursary.

Should you meet the requirements, please forward your CV and full academic record to:

Dr. D Desai, E-mail: [desaida@tut.ac.za](mailto:desaida@tut.ac.za)

Enquiries Tel: +27 (0)12 382-5886

**Closing date:** 15 Feb 2016.
