OFFICIAL INFORMATION ON THE STATUS QUO AT TUT

Dear TUT community

Since President Cyril Ramaphosa’s announcement of a national 21-day lockdown, a week ago, all activities at the University have also been under lockdown. In an earlier communication TUT’s management stated that the University will make an announcement, after 16 April 2020, around catch-up and the resumption of activities after an assessment of the situation country-wide and the President’s guidance on the way forward.

The University is aware of messages about the rescheduling of the academic calendar and tests currently doing the rounds that might create confusion.

It is regrettable that people use situations such as the lockdown, to create confusion and panic.

Please note that all official communication will at all times be published on TUT’s official Website, [www.tut.ac.za](http://www.tut.ac.za).

If in doubt about any communication published or sent to you, please verify it by using the official TUT Website.
