CHANGE OF PREDICATE RATIO TO 40:60

Due to the Covid 19 pandemic the University revised the predicate ratio to 40:60, which means:

In subjects or modules where students take formal examinations, the final mark shall be calculated by combining the predicate mark and the examination mark at a 40:60 ratio.

To understand this, the following example will be used:

Predicate mark = 70%
Examination mark = 50%

To calculate finale mark:

\[
\begin{align*}
70 \times 40 &= 28 \\
\frac{28}{100} &= 28 \\
50 \times 60 &= 30 \\
\frac{30}{100} &= 30 \\
28 + 30 &= 58%
\end{align*}
\]

The following still stays the same:

1. Pass mark for all students remains 50% and above.
2. A student must get a 40% predicate mark to be admitted to the examination.
