If a student suspects that he or she has a contagious or an infectious disease that may be transmitted to other people, and should he or she participate in any TUT activities, for example (without any limitations), accommodation in TUT residences, sitting for examinations or tests, or participation in TUT projects, sport or recreational activities, he or she must obtain medical advice and/or undergo the required treatment without delay.

Should such medical advice entail that the student has to withdraw from any or all TUT activities, he or she must act accordingly.

Should such a student fail to withdraw from the activity or activities in question, he or she must exempt TUT from any liability of any kind whatsoever, whether directly or indirectly, for the consequences of his or her failing to do so.

Should a student have suffered from a contagious or an infectious disease, or have been in contact with any person suffering from such disease, the student must submit a medical certificate to the Registrar, containing confirmation that the student may return to TUT without there being any danger of him or her infecting other students.
