TOTAL CREDITS FOR THE QUALIFICATION:			120

MODULE INFORMATION (OVERVIEW OF SYLLABUS)

The syllabus content is subject to change to accommodate industry changes. Please note that a more detailed syllabus is available at the Department or in the study guide that is applicable to a particular module. At time of publication, the syllabus content was defined as follows:

F

FINANCIAL ACCOUNTING ASPECTS IV (FAA107V)

CONTINUOUS ASSESSMENT

(Module custodian: Department of Accounting)

Introduction to accounting, books of original entry, the ledger, fixed assets, operation results and financial position, elementary company accounts, cash-flow statements, analysis and interpretation of financial statements. (Total notional time: 300 hours)

O

OPERATIONS MANAGEMENT TECHNIQUES IV (OTE107V)

CONTINUOUS ASSESSMENT

(Module custodian: Department of Operations Management)

The purpose of this module is to familiarise the student with the application or selected Operations Research Techniques to real life problems. Non-linear programming. Advanced simulation, calculus and probability, EOQ modules and forecasting modules. (Total notional time: 300 hours)

OPERATIONS MANAGEMENT TECHNOLOGY IV (ORM107V)

CONTINUOUS ASSESSMENT

(Module custodian: Department of Operations Management)

This module provides students with the conceptual framework of Operations Management and Technology that is applicable to both manufacturing and the service industries. Students will be exposed to the technology and operations management focusing on value creation on a global scale through innovative product and process design, managing technology in operations management as well as on value capture through effective supply chain. Emphasis will be on applying problem-solving; decision-making and project management tools in their work. (Total notional time: 300 hours)

R

RESEARCH METHODOLOGY (ROR107V)

CONTINUOUS ASSESSMENT

(Module custodian: Department of Operations Management)

The purpose of this module is to introduce students to scientific research skills required to compile a basic research proposal for projects within a field of management sciences. This module lays the foundation for reviewing academic literature, selecting appropriate scientific research designs and methods in adherence to ethical research principles for projects within a field of management sciences. (Total notional time: 300 hours)
