TUT CISCO
CCNA PROGRAM

BUILDING TOMORROW'S NETWORKING PROFESSIONALS

Tshwane University of Technology
We empower people

SKILLS | INNOVATION | OPPORTUNITY

Faculty of Information and Communication Technology

1. INTRODUCTION

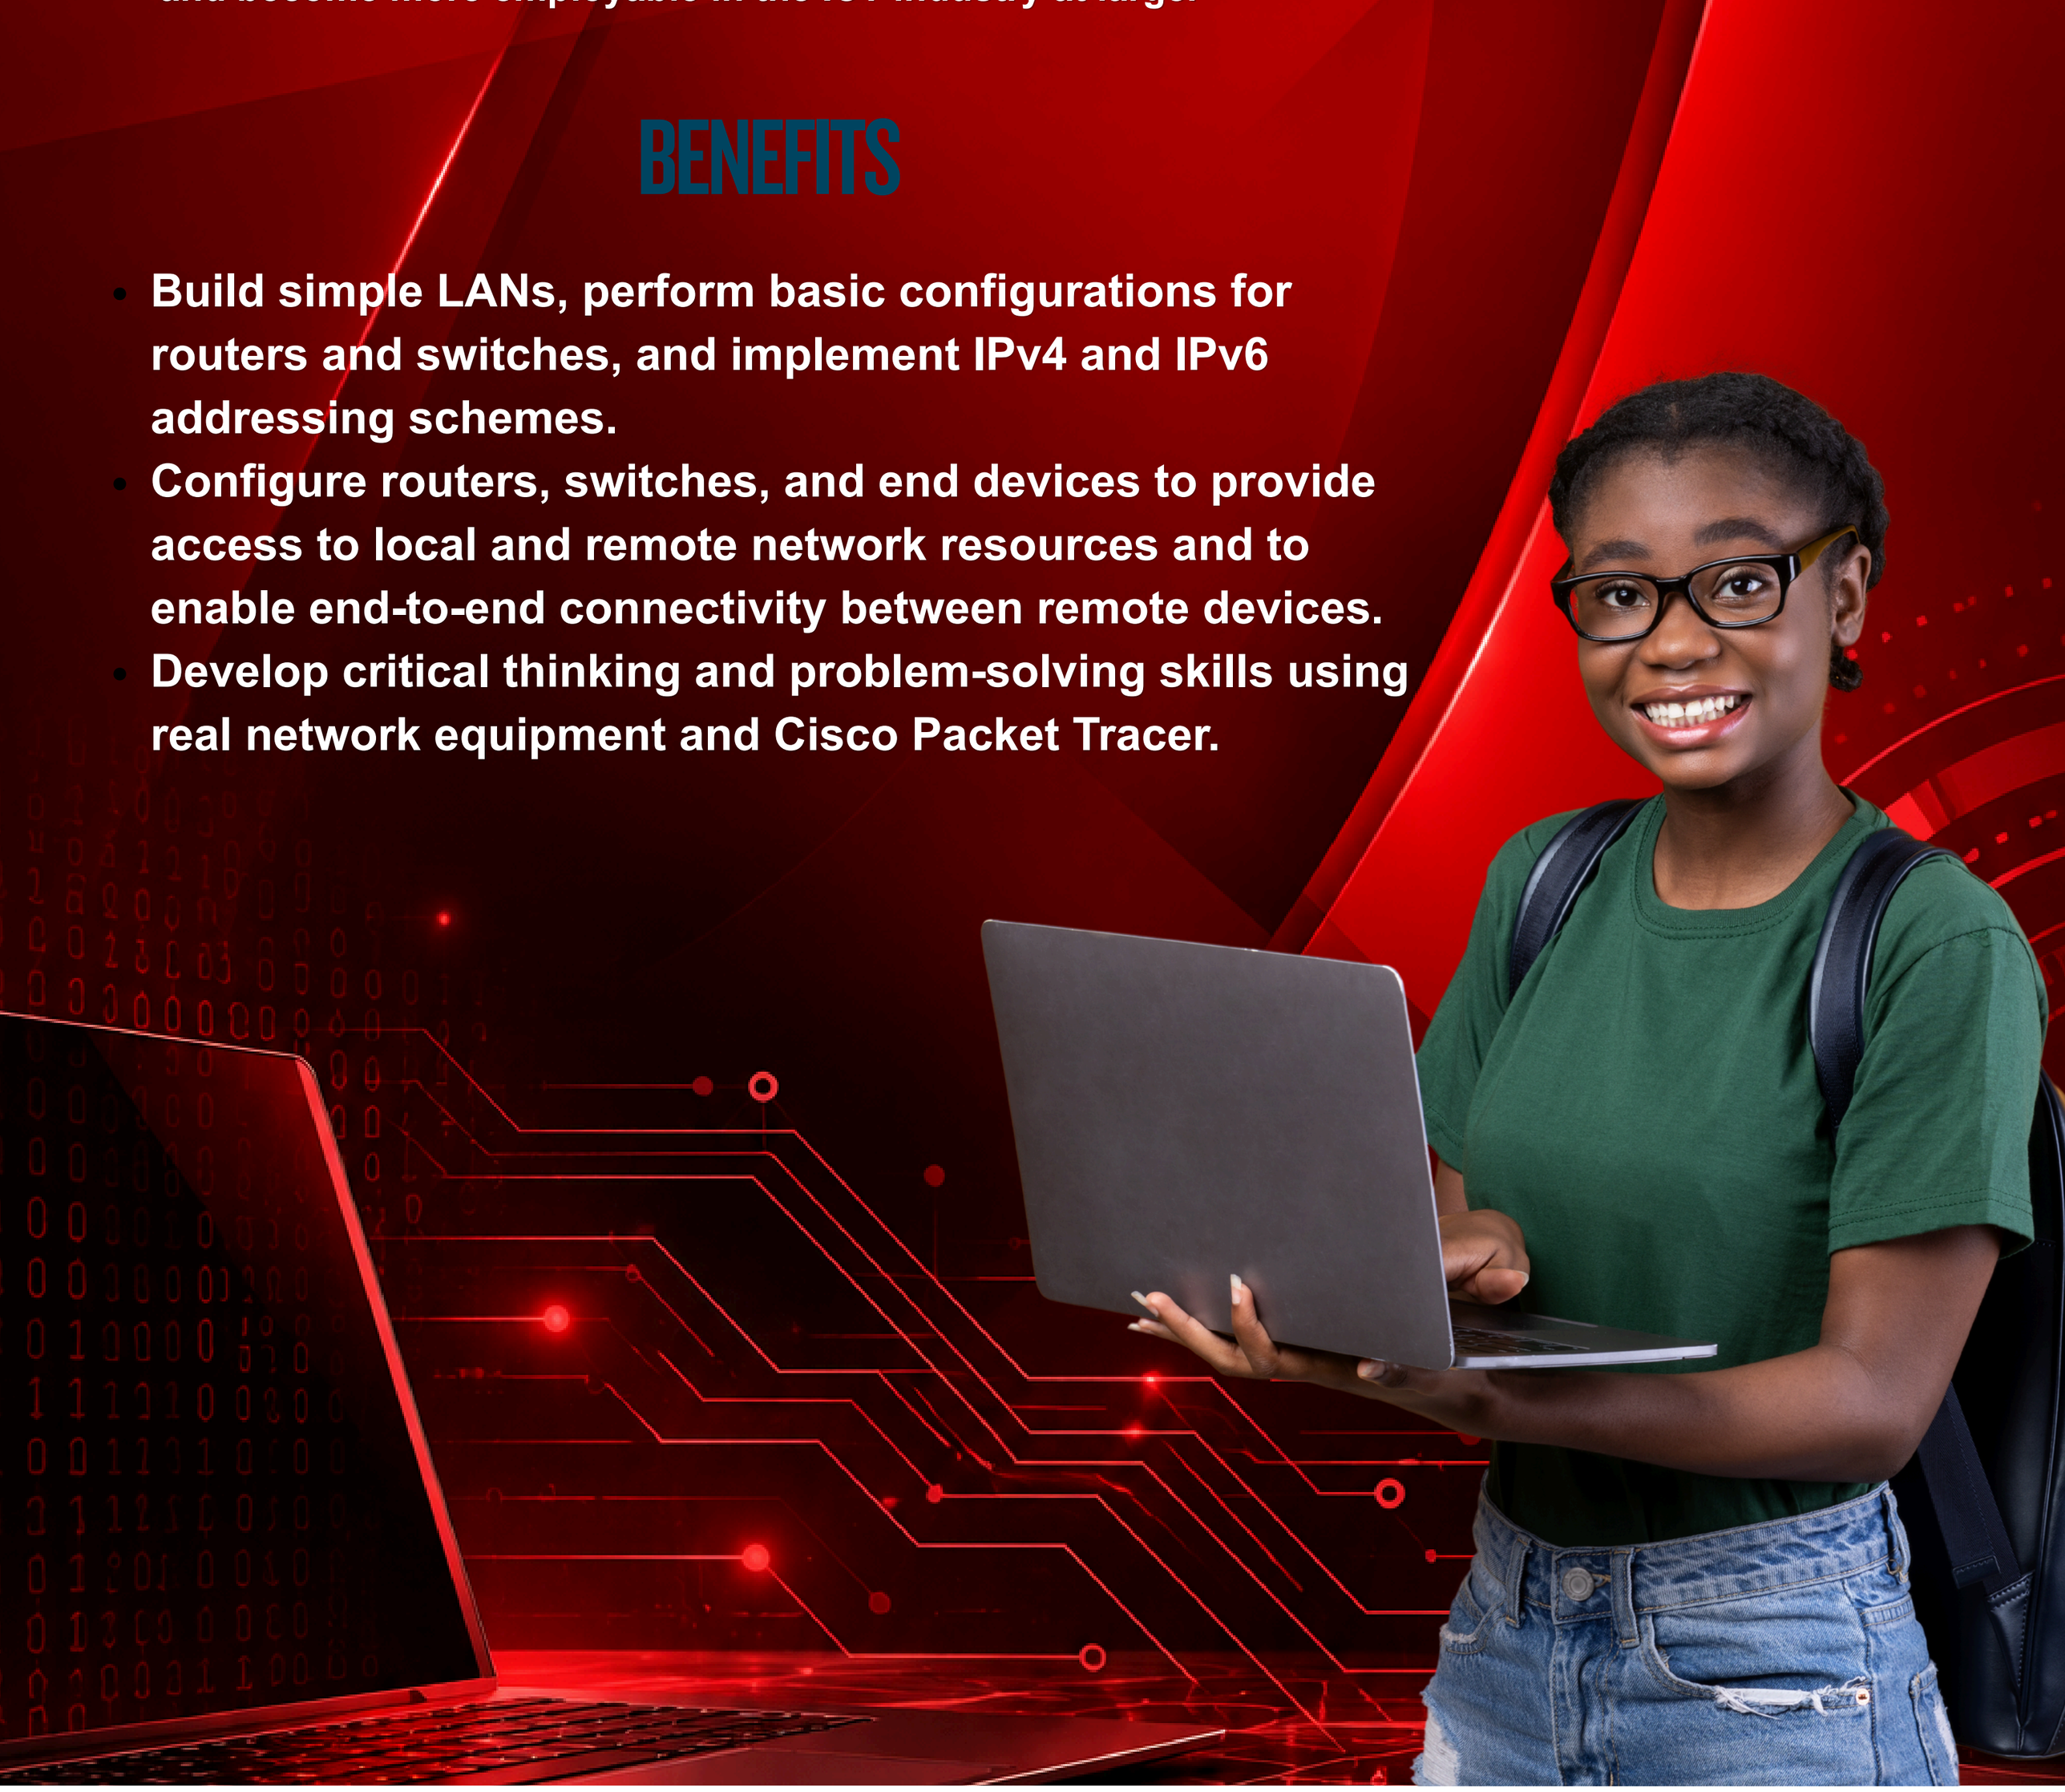

Cisco is the worldwide leader in IT and networking. Over the past two decades, Cisco has empowered over 17 million students through skills development in the networking field. Cisco has academies in over 150 countries world wide. Tshwane University of Technology has an accredided Cisco academy in the faculty of ICT under department of Information Technology.

2. PURPOSE OF THE CCNA PROGRAM

The purpose of this CCNA program is to help applicants and professionals to get more industry technical skills exposure and become more employable in the ICT industry at large.

BENEFITS

- **Build simple LANs, perform basic configurations for routers and switches, and implement IPv4 and IPv6 addressing schemes.**
- **Configure routers, switches, and end devices to provide access to local and remote network resources and to enable end-to-end connectivity between remote devices.**
- **Develop critical thinking and problem-solving skills using real network equipment and Cisco Packet Tracer.**

3. DATES FOR CCNA PROGRAM

The program will run for two weeks from:

2**3 November to 4 December 2026**

4. ADMISSION CRITERIA

Unemployed South African youth who hold either a Grade 12 certificate or an Information Technology-related diploma may apply for the programme. As part of TUT's community-engagement initiative, applicants with a Grade 12 certificate will also be considered for admission.

Since we only have space for 100 students per training, there will be a rigorous selection process with the following criteria used:

a) Female applicants will be given priority,
b) Unemployed TUT ICT diploma graduates will be given priority,
c) Grade 12 community applicants,
d) Good-performing students will be given priority.

5. HOW TO APPLY

Applicants are required to click the link below and complete Google form.
