## Conferences

### 1. SOUTH AFRICA: International Education Association of South Africa (IEASA)

IEASA's 28th annual conference invites higher education leaders, internationalisation practitioners, academics, scholars and students to critically engage with the assumptions, priorities and power structures that have long shaped internationalisation globally. Framed through a distinctly Global South lens, the focus is on illuminating emerging trends, innovations and collaborations that originate from Africa, Latin America, Asia and the Middle East spaces too often positioned as recipients rather than drivers of global knowledge.

IEASA invites academics, researchers, professionals, practitioners, educators, students, innovators, and leaders in international higher education to contribute to this conference. Contributions are invited for the following formats:

- Parallel Sessions: Interactive discussions and presentations
- Panel discussions: multi-voice dialogues offering diverse perspectives on a shared topic
- Case Studies: Institutional, national or regional examples illustrating effective emerging practices.
- Innovative or Interactive sessions: Creative formats that actively engage participants beyond traditional presentations.
- Poster Presentations: Visual displays of research, projects or innovative practices
- Workshops: Hands-on and in-depth explorations of topics.

**Application for deadline parallel, panel, case studies, innovative active and poster sessions:**

**13 March 2026**

**Application Deadline Workshops: Friday, 13 March 2026**
