# VACANCY BULLETIN

**PART TIME LECTURERS X 1**
**DEPARTMENT OF TECHNOLOGY AND VOCATIONAL EDUCATION**
**FACULTY OF HUMANITIES**
**SOSHANGUVE NORTH CAMPUS**
**Ref: 26/G154**

The Department of Technology and Vocational Education in the Faculty of Humanities invites applications for the position of Part-Time Lecturer for 2027 at the Soshanguve North campus for the following subject: **Automotive and Repair and Maintenance Level 1 (UAU107V).**

**INSTRUCTIONS:** Applicants are required to submit, together with the CV's, a fully completed standardized application form available from the university intranet as well as recently certified copies of qualifications, Identity Document. Failure to comply with this instruction will disqualify the candidate. Candidates may be subjected to appropriate psychometric testing and other selection instruments.

**Key performance areas/Core functions:**

The lecturer in the Department of Technology and Vocational Education, in the school of Education, is an academic leader responsible for teaching and managing activities of teaching and learning and assisting with curriculum development in relation to the MRTEQ requirements of the department, including that they:

- Teach and facilitate Automotive Repair and Maintenance modules within the Department in accordance with approved curricula and institutional requirements.
- Plan, prepare, and deliver lectures, tutorials, practical workshops, laboratory sessions, assessments, and learning materials that promote student success, technical competence, and academic excellence in automotive systems and vehicle maintenance.
- Develop, review, and maintain study guides, practical manuals, assessment instruments, workshop exercises, and learning resources aligned with programme outcomes and quality assurance requirements.
- Facilitate and supervise practical training activities involving vehicle systems, automotive diagnostics, engine testing, maintenance procedures, fault-finding, and repair techniques.

Women and people with disabilities are encouraged to apply.

# VACANCY BULLETIN

- Facilitate and supervise practical training activities involving vehicle systems, automotive diagnostics, engine testing, maintenance procedures, fault-finding, and repair techniques.
- Participate in Teaching Practice activities, including student supervision, mentoring, assessment, and liaison with schools, technical training centres, industry partners, and other relevant stakeholders.
- Engage in research and scholarly activities in Automotive Engineering, Maintenance Technology, Technical and Vocational Education, and related fields through publications, conference presentations, innovation projects, and postgraduate supervision.
- Participate actively in departmental research groups and contribute to the Department's research agenda, innovation initiatives, and industry-related projects.
- Engage in community engagement and industry collaboration projects that support the Department's, Faculty's, and University's strategic objectives and contribute to skills development within the automotive sector.
- Participate in departmental, faculty, and institutional committees, meetings, workshops, academic development initiatives, and quality assurance activities as required.
- Perform administrative duties related to Automotive Engineering and Maintenance modules, including assessment administration, moderation, reporting, student support, record-keeping, and programme coordination.
- Compile, administer, and moderate assignments, tests, practical assessments, laboratory reports, projects, portfolios, and examination papers in accordance with institutional policies.
- Mark assessments and examination scripts and provide timely, constructive, and developmental feedback to students.
- Capture, verify, and manage student marks, progression data, and academic records on the relevant institutional systems.
- Contribute to curriculum development, review, accreditation, programme renewal, and quality assurance processes in accordance with institutional and regulatory requirements.
- Manage and maintain automotive workshops, laboratory facilities, diagnostic equipment, tools, training vehicles, and related resources to ensure safe and effective teaching and learning environments.
- Ensure compliance with Occupational Health and Safety (OHS) requirements, workshop safety standards, environmental regulations, and industry best practices applicable to automotive repair and maintenance.

Women and people with disabilities are encouraged to apply.

Tshwane University of Technology

We empower people

- Establish and maintain collaborative relationships with automotive manufacturers, dealerships, technical training providers, professional bodies, and industry stakeholders to enhance teaching, research, and student employability opportunities.
- Collaborate effectively with colleagues in teaching, research, community engagement, curriculum development, and departmental initiatives to promote continuous improvement and academic excellence.

**Minimum requirements:**

**Academic qualifications:**

- NQF level 9 Master in Education.
- Must have a specialisation in Mechanical Technology (Automotive Repairs and Maintenance) at Honours level.

**Experience:**

- 3 years' experience as a lecturer in Automotive Repairs and Maintenance and/or 3 years' experience in industry.

**Knowledge and Skills:**

- Demonstrated knowledge and understanding of Automotive Engineering, Automotive Repair and Maintenance, and related transportation technologies.
- Knowledge and skills in Adult and Community Education and Training (ACET) and/or Technical and Vocational Education and Training (TVET).
- Sound understanding of the principles and practices of adult learning, vocational education, and workplace-based learning.
- Knowledge of automotive systems, including engine technology, transmission systems, steering and suspension, braking systems, automotive electrical and electronic systems, vehicle diagnostics, and maintenance practices.
- Knowledge of vehicle servicing, fault diagnosis, repair procedures, maintenance schedules, and the application of relevant automotive industry standards and manufacturer specifications.
- Knowledge of modern automotive technologies, including computerised diagnostic systems, hybrid vehicle technologies, electric vehicles (EVs), and automotive electronic control systems.

Women and people with disabilities are encouraged to apply.
