

Blackboard Module migrated or not?

#12

Not all TUT Semester 1 and Year modules in Blackboard were migrated to Brightspace in 2020. There are several reasons for this:

- The Content files in Blackboard are too large
- There are too many Quizzes
- The Content files are too small
- The module was not accessed by students during the Covid lockdown period in 2020

Q: What should I do if my Semester 1 or Year modules were not migrated from Blackboard to Brightspace in 2020?

A: As a lecturer you can choose to design your module from scratch starting with a 'clean' module template in Brightspace or you can contact the myTUTOR Service Desk to agree the relevant action required to migrate the module.
