

Where should I focus - 2020 or 2021 Course Offering?

#13

Modules migrated from Blackboard to Brightspace contain the year 2020 in the module code, indicating that this was the module offered in 2020. Modules offered to students this year will contain the year 2021 in their module code.

Q: As a lecturer, what are my options in terms of reviewing and uplifting my 2020 module?

A: Lecturers should follow one of the options listed below:

- Option 1: Review and uplift the migrated 2020 module; then copy the 2020 module with all the content to the 2021 offering
- Option 2: Copy the 2020 module with all the content to the 2021 offering; then review and uplift the 2021 module
- Option 3: Create the 2021 module from scratch using the *TUT 101 Course Template*
