

D2L Brightspace Learning Management System

#1

The dynamics and requirements for teaching and learning have changed. To support this change, myTUTOR will be replacing the current Blackboard LMS with D2L Brightspace starting in January 2021. It is important that all stakeholders are informed about the changes and implementation requirements such as content review and upliftment to be finalised by 12 April 2021 for Semester 1 and Year modules. Ensure that you keep up to date with these important new developments by following the myTUTOR D2L LMS campaign on various platforms.

Q: WHY IS myTUTOR CHANGING?

A: An engaging digital LMS platform (strategic goal 3) is required to support teaching and learning (strategic goal 1) in becoming a digitally advanced university (strategic goal 4).
